Cast Iron Radiators

Heritage

Timeless elegance for when genuine period style is sought, and complements modern interiors where they have become particularly fashionable. The Heritage cast iron range has a long established pedigree and epitomises the timeless elegance of cast iron.

Supplied in 4 heights 422mm, 600mm, 700mm and 900mm in sections of 60mm. Both 4 and 6 columns are available. Full range of accessories available which includes cast iron feet, retaining stay, and joining key tool. Finished with a primer base providing a surface that is suitable to be finished in metallic and gloss colours.

Shown with BV15T valve

Notes

- All outputs at Delta T50°C
- Footed section available
- **WARNING:** Please note that these products are not water tested. All joints should be tightened and checked before filling. A joining key will be required for this purpose
- 10 year guarantee
- 48 hour delivery available
- All dimensions in millimetres
- All prices subject to VAT
- A restocking charge applies (see page 3)

Cast Iron Radiators

Renaissance

The Renaissance cast iron radiator elegantly combines opulent style with modern heating efficiency.

Available in two heights, 954mm and 760mm the Renaissance is ideal for traditionally styled new build or period refurbishment projects.

Each section is pressure tested to 10 bars, working pressure 6 bars.

Notes

- All outputs at Delta T50°C
- 10 year guarantee
- Wall to centre of tapping - Double 50mm
- **Warning: There products are extremely heavy and require 2 man lift**
- All dimensions in millimetres
- All prices subject to VAT
- A restocking charge applies (see page 3)

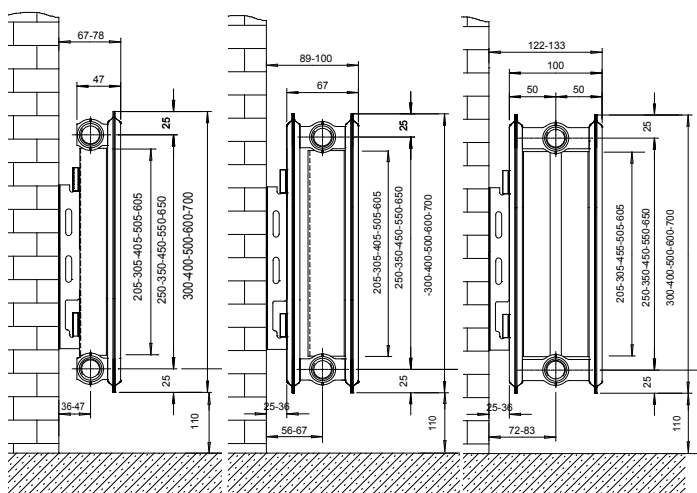

Eco Rad

Water treatment

It is strongly recommended on completion of the installation the system should be properly flushed and filled in accordance with the British Standard Code of Practice for the Treatment of Water in Domestic Hot Water Central Heating Systems BS7593

For maximum efficiency, radiators should be fixed at not less than 100mm from finished floor level. Pipe positioning guide for manual valve allow 35mm to centre pipe. For TRV allow 45mm to centre pipe. To prevent damage to radiator it is strongly recommended during installation to leave protective packaging on radiator by simply removing the lug protectors and pre-cut tapping connection

Notes

- All outputs at Delta T50°C
- 10 year guarantee
- Heat outputs certified to EN442
- All Eco Rads are supplied with factory fitted top grille and side panels
- Eco Rads are manufactured under EN ISO 9001
- Eco Rads are painted with RAL 9016
- All dimensions in millimetres
- All prices subject to VAT
- A restocking charge applies (see page 3)
